

## Building Capacity for Environmental Leadership

### Environmental Leadership Worksheet – Setting Goals

<b>Vision:</b>				
Greening Targets	Baseline	Goals		
		Short-Term (0-1 year)	Mid-Term (1-5 years)	Long-Term (5 years +)
Planning documents	Is there sustainability language in existing GMP? What is the time frame for GMP update? Is there sustainability language in other plans? Will other plans be prepared/ updated this year? Next year?			
Planning process	What is GMP updating process at the park – who, how, when? What is the process for other plans – who, how, when? Are additional greening charrettes needed?			
Community involvement	How is the community involved in planning – public meetings? Hearings? Educational materials? Public comment?			
EMS	What is the status of EMS preparation, if any?			
Training	What training have staff had on sustainability topics? What additional training is needed?			
Audits	What is the status of response to environmental audit findings? Response to energy and water audit findings, if any? Plans for energy and water audit, if none?			
Lessons Learned	What channels of communication exist with other parks?			
<b>Cross-Cutting Goals</b>				
Education/ Interpretation	What additional resources are needed for interpreting sustainability?			
Training Needs	What training have staff had on sustainability topics? What additional training is needed?			
Procurement	What green procurement activities are underway?
